

YPI SCOTLAND HAVE LAUNCHED THE *YOUR COMMUNITY FUND*...

Your time, talent and insight will help you to champion social issues at charities in our local community during this difficult time. As a result of the coronavirus pandemic, many local charities are working harder than ever before and are facing a massive increase in demand for their services.

Grants of £4,000 are available, and our school can nominate up to three entries for this funding! The three groups who meet the criteria in the most creative and engaging way will be nominated to go forward!

YOU NEED TO SHOW TEAMWORK, CONTENT AND STYLE...

You need to work as a Team, and you can use your channel on Teams to help if you wish, or you can keep in touch outwith Teams too, as long as you follow the government's guidance and don't actually meet up!

Your submission must:

1. **Provide** insight on the impact of COVID-19 in their community.
2. **Explore** in greater detail a specific local social issue that has faced significant pressure due to the crisis.
3. **Identify** a local OSCR-registered charity doing valuable work to address this issue and how the grant could potentially support their activities during the current crisis.
4. **Present** the above with style, creativity and conviction.

You might consider spoken word to camera, creating an animation or a video package, producing an infographic or a poster, or narrating a concise presentation. You can find more information [by clicking here](#).

GET INVOLVED...

To be added to the Team on Office 365, email your RE teacher with the names of everyone in your group:
